Sciences and the Universe

The First International Conference on Toxicology and Health

November 28 – 29, 2016

Conference scopes

The first ICTH will be dedicated to the different studies and research in toxicology about the risks of different origins, environment, professional exposure, food and drugs that may affect human health. The conference will be an opportunity for exchange and interdisciplinary debates about the latest advances in the field of toxicology.

The conference will be comprised of keynote lectures given by world-renowned scholars, in addition to oral and poster sessions that highlight the following topics:

- ✓ Toxicological risk assessment and human health
- ✓ Food and drug toxicology
- ✓ Environmental toxicology and bioremediation
- ✓ Toxicology of xenobiotics
- ✓ Free topics
