About the Institute (EPCET)

East Point College of Engineering and Technology (EPCET) is a prestigious institution established in 1999 by M. G. Charitable Trust in Bangalore. Affiliated with Visvesvaraya Technological University (VTU) and approved by AICTE, EPCET offers a diverse range of undergraduate and postgraduate programs in various disciplines such as Artificial Intelligence and Data Science, Artificial Intelligence and Machine Learning, Computer Science and Engineering, IOT, Information Science and Engineering, Electronics and Communication Engineering, Mechanical Engineering, and Civil Engineering. With an esteemed faculty team of over 200 members, including Ph.D. holders, EPCET is dedicated to providing high-quality education and research opportunities to its more than 2500 students. The college places a strong emphasis on industry collaborations and offers accredited programs with Industry-Institute integrated learning initiatives through partnerships with leading companies such as Salesforce, UiPath, VMware, AWS, Texas Instruments, ARM University, and CISCO. EPCET features modern infrastructure with well-equipped laboratories, state-of-the-art classrooms, and a Wi-Fi-enabled library housing a vast collection of books and technical journals. The college actively promotes faculty participation in seminars and conferences, fostering a culture of continuous learning and keeping up with industry trends. EPGI's multi-college campus encourages interdisciplinary interactions among students from various fields, creating a holistic educational experience.

About the Department (ISE)

The Department of Information Science and Engineering, established in 2001, has 180 students and is accredited by NBA. It focuses on design principles and development of Artificial Intelligence, Machine Learning, Deep Learning, Cloud Computing, Big Data Analytics, Information Systems and Cyber Security, LoT, Networking and Data Communications, Image Processing, and Software Engineering. The department's strength lies in its cohesive faculty team, attracting innovative technology creators and outstanding computer professionals with ethical and human values.

International Conference

on
Engineering Innovations in Emerging Technologies(ICEIET-2024)

24th & 25th April 2024

Organized by

Department of Information Science and Engineering

All Papers will be Published in Conference Proceedings and Selected Papers in Scopus Indexed Journal

Conference Preamble

The International Conference on Engineering Innovations in Emerging Technologies provides common forum for deliberations, sharing of recent trends, advancement research in the area of Information Science and Computer Science Engineering. This Conference will be very good platform for academia, researchers, industry practioners and technologist to discuss and present recent advances and research outcomes in the field of Information Science and Computer Science Engineering.

Important Dates

Last date for paper submission: 22/04/2024

Notification of acceptance: 23/04/2024

Last date for Registration: 23/04/2024

Conference Date: 24/04/2024 & 25/04/2024

Submission Guidelines

1. Abstract Includes the Title, Names of Authors, Affiliation, Abstract(max 300 words), 5 Keywords, Corresponding author's Email ID, Contact number in a PDF file(for Template, follow the link below)

2. Paper with High-quality submission of original technical papers in IEEE format containing theoretical, experimental, and/or applied research work and case studies for presentation and publication in the reputed journal.

3. Maximum six pages are allowed. (For IEEE format/guidelines, follow the link below)

4. Download the Templates for Abstract IEEE format here:

Call for Papers

The Engineering Innovations in Emerging Technologies invites full length original research contributions, not submitted to any journal or conference. We invite technical papers on, but not limited to following domains.

Cloud Computing

Data Minning

Big Data Analytics

Wireless Sensor Networks

Machine Learning

Network Communications

Artificial Intelligence

Deep Learning

Image Processing

Block Chain Technology

IOT

Cyber Security
