Welcome Message

Dear Colleagues, inviting everyone to the **International E-Conference on Interdisciplinary Perspective of Basic and Engineering Science (IECIPBES-2023)** is a great joy and honor. **IECIPBES-2023** will be held in virtual mode from **October 28 to 30, 2023**, and is being organized by Hi-Tech Institute of Technology and Srinath College of Arts , Comm. & Science, & Hi-Tech Management and Computer Science College, Waluj MIDC, Aurangabad. I hope your active participation will help make the conference a great success. Attending **IECIPBES-2023** will give you the chance to network with top-tier basic science and engineering professionals and broaden your understanding of science and related topics.

The **International E-Conference on Interdisciplinary Perspective of Basic and Engineering Science (IECIPBES-2023)** invites your participation.

ABOUT BGPS

B.G.P.S. has played a pioneering role in profession and technical education in Marathwada region. The campus comprises of engineering, pharmacy, science, art, commerce, and management college. The mission of Bhartiya Gramin Punarrachana Sanstha (BGPS) is to help region and other developing state to improve their engineering practices both in the private and in the public sectors, and superior public policies. It seeks to do this through producing effective engineers who will pioneer new engineering practices and set new standards; through producing teachers and researchers who will generate new ideas of international significance.

That is, we must produce engineers who can work efficiently across the globe, who can excel in a multi culture environment, and who can negotiate confidently across culture. Further, we must benchmark ourselves on a global scale with the best engineering education institutions and become the institution of choice for the best students residing all over country. This is a big challenge indeed, knowing the potential of faculty we have no doubt that this objective will be achieved and exceeded.

Scope of the Conference

The IECIPBES-2023 was designed to bring together brilliant minds in the domains of basic science and engineering science from academic, industrial, and other backgrounds to present cutting-edge research, inspire others, and spark exciting potential for interdisciplinary collaboration. In addition to oral presentations by scientists, academicians, scholars, and students, this conference will feature a keynote address, plenary lectures, and invited addresses from notable scientists from around the world, including India. The most significant pillars of economic progress and social welfare are basic science and engineering. Therefore, they are significant on a global scale. The conference's focus is on many facets of cutting-edge scientific research with practical applications.

Conference Topics:

- Agricultural Engineering
- Applied Chemistry
- Applied Physics
- Architecture & Construction
- Artificial Intelligence
- Automobile Engineering
- Biotechnology
- Ceramic Technology
- Chemical Engineering
- Civil Engineering
- Communication Engineering
- Computer Engineering
- Software Engineering
- Computer Science & Engineering
- Earthquake Engineering
- Mathematics
- Mechanical Engineering
- Management
- Metallurgical Engineering
- Mining Engineering
- Nano Technology
- Material Science
- Plastic Engineering & Technology
- Polymer Engineering

.... many other subjects are addressed in the conference theme but are not restricted to these.
