ABOUT COLLEGE

Anand Charitable Sanstha was established by visionary leader Hon. Bhimraoji Dhonde (Ex MLA). This institution aims at academic excellence and social justice through quality education.

This college is established in July, 1990. It is established with the sole mission of creating and developing the facilities and resources of higher education in order to make easy and convenient accessibility to the youths. Presently this college runs UG to PG level programs including Research centers in Commerce, Marathi and Chemistry.

The college is affiliated to Dr. Babasaheb Ambedkar Marathwada University, Chh. Sambhajinagar. The college has beautiful, eco-friendly campus of 10 acres with adequate infrastructure. The college is reaccredited by NAAC with "A+" Grade (3.34 CGPA) in May 2023.

ABOUT VENUE

Kada is a small town located in Beed district of Maharashtra state. It is 45 Km away from Ahmednagar and 100 Km from Beed. Today it is famous as the best market place among farmers and traders. It is on the Shirdi-Hyderabad National Highway. There are frequent buses available. Nearest Railway station is Ahmednagar 45 km away and Nearest airport is Pune 160 km and Chh. Sambhajinagar 150 km away from Kada.

About Society of Science, Technology and Humanity, Kalyan

The Society of Science, Technology and Humanity, Kalyan is established by Prin. Dr. Vasant Mali with the registration no. MAH/92/2020/THANE. The prime objective **"Shaping a Better Tomorrow Through Knowledge and Empowerment."**The vision of society is grounded in a profound commitment to advancing society through education, empowerment, and innovation. The picture a future in which the relentless pursuit of knowledge, social advancement, and individual empowerment transform the world. The objective is to impact education in diverse fields, including Science, Management, and Social Sciences. We believe that education is the cornerstone of progress, and through our efforts, we strive to make quality education accessible to all.

ABOUT CONFERENCE

Biodiversity on Earth, is facing an unprecedented crisis. Human activities such as deforestation, pollution, overfishing, and climate change are pushing countless species to the brink of extinction. The consequences of inaction are far-reaching, with implications for ecosystem resilience, human well-being, and the planet's ability to support life. Biodiversity conservation is the practice of protecting and preserving species, ecosystems, and the natural processes that support them. It requires a multifaceted approach, involving governments, NGOs, local communities, and individuals. Department of Zoology and Botany has taken efforts to organize national conference which will explore the current state of biodiversity conservation, identify key challenges and opportunities, and examine innovative solutions to address the biodiversity crisis.

Sub Themes:

1. Consequences of climate change on Biodiversity
2. Biodiversity and bio conservation strategies and Solutions.
3. Climate change impacts on ecosystems
4. Challenges for biodiversity conservation
5. Human-wildlife conflict and coexistence
6. Pollution and Degradation:
7. Biodiversity Monitoring and Assessment
8. Forestry and Green Economy
9. Biodiversity and Betterment of Human health
10. Microbiology for betterment of Human health
