Astrology is a science which searches the mysteries of the possibilities that are likely to occur in the future. This study has tried to clarify how the planets are responsible to produce any kind of disease in the person. The random samplings of the individuals attending hospital for diagnosis of coronavirus were included in this study. Total twenty Covid - 19 patients were selected for the horoscope. The horoscope was prepared on the date and the time of birth of the CoViD - 19 patients recorded by them which was approved by Nepal Panchanga Nirnayak Committee. In majority of covid patients, the Rahu which is the causal-factor of virus.

But at the same time it has been seen that the person having good Dasa-Antardasa also suffered with COVID - 19 due to his individuals behavior. Among the 20 cases, Majority of them had unfavorable Dasa - Antardasa and unfavorable condition of Rahu which is vital factor for the disease i.e. coronavirus. The effect of solar planets had been seen in human health. The immunity power becomes weak due to the weakness of Lagnes and there is high chances to become ill, if the Dasa- Antardasa is unfavorable.

I. INTRODUCTION

Novel Coronavirus (COVID-19) is the most recent one in the world Firstly; it was detected in Wuhan city of China in December, 2019 and became pandemic in the short span of time. Since the pandemic of COVID-19 is alarming the globe, the

number of infected cases around the world is increasing day by day[1].

History of human corona virus started in 1965 with the first coronavirus B814. It was discovered by Tyrell and Byoe. It was detected in the trachea of the respiratory tract in an adult who was suffering from common cold[2]. Since then different forms of corona

virus exit in this earth. Recently, the world is under the epidemic of new type of coronavirus (COVID-19) which is believed to be worldwide through its origination in Wuhan, China. Till now it has reached to across the globe. It is also a virus that is transmitted through contact with an infected person[2]. This contact can be through respiratory droplets or salivary droplets during the coughing or sneezing of the infected person[3]. It has led to high mobility and mortality rate in China, Europe, United States and most of the other countries in the world[4]. It has lead to unprecedented health crises throughout the world. Many people are dying because of disease and hunger in the world due to corona virus. So on March 11, 2020 the world health organization (WHO) declared COVID-19 as a global pandemic. COVID 19 is caused by a novel corona virus which is also known as severe acute respiratory syndrome coronavirus (SARS-COV-2) [5, 6]. Although the large numbers of individuals infected with COVID-19 globally, it is bitter fact that there is no medicine invented by now. Medical astrology is an ancient medical system that associates various parts of the body, diseases, and drugs as under the influence of the sun, moon, and planets, along with the twelve astrological signs. It searches the mysteries of the possibilities of diseases that are likely to occur in the future. All the planets have more or less effects on every men.

Study conducted by Subedi et al. 2019 showed the relationship of medical and astrological science to

clarify how the planets are responsible to produce, cancer and other disease in the person. It also displayed the relationship between the medical astrology with corona virus.

II. METHODS AND MATERIAL

Total 20 patients has been taken for this study. Each individuals were randomly visited in the study period. Main instrument for the study were laboratory report with and individuals horoscope made based on the calendar issued by Nepal Panchanga Niryanak Committee. The prediction had been done on the basis of the Falit Jyotish.

III.LIMITATION OF THE STUDY

This study has the inclusion of total 20 persons having Covid 19 problem. This study being the inclusion of limited Covid 19 patients may not fully be accepted in general but it is hoped to be an extra study and research from the point of medical and astrological perspective.

IV. RESULTS AND DISCUSSION

This study explains the total 20 patients. All patients were analyzed by medical and astrological sciences and noted the result as below.

V. Discussion

The effect of solar planets had been seen in human health. The immunity power become weak due to the weakness of Lagnes and there is high chances to become ill, if the Dasa Antardasa is unfavorable. But at the same time it has been seen that the person having good Dasa Antardasa also suffered with COVID 19 due to his individuals behavior. Among the 20 cases, Majority of them had unfavorable dasa Antardasa and unfavorable condition of Rahu which is vital factor for the disease i.e. coronavirus.

VI. Conclusion

From the above study we can conclude that with the mere study of corona patient does not proved that corona was caused due to the effect of solar planet only.
